Helping Your Child Get the Right Care at the Right Time
You know your child best.
Get the best possible care when and where it’s needed.

Pediatrician

Your child’s pediatrician is your first stop for most routine care and non-emergency symptoms like:

- Abdominal pain
- Asthma
- Childhood illnesses
- Cough
- Cold symptoms
- Earache
- Fever
- Flu symptoms
- • Sudden fever
  • Body aches
  • Cough
  • Congestion
- Fractures and Sprains
- Minor injuries
- Minor Burns and Cuts
- Rashes
- Sore throat
- Vomiting and Diarrhea
- Vaccinations

Urgent Care

If your pediatrician is not available and you need to get care fast, Urgent Care is the next best option for:

- Abdominal Pain
- Burns
- Cuts requiring stitches
- Fever
- Flu symptoms
- • Sudden fever
  • Body aches
  • Cough
  • Congestion
- Fractures and Sprains
- Minor injuries
- Rashes or Hives
- Vomiting and Diarrhea

Emergency Care

Get care immediately for serious limb injuries or life-threatening conditions like:

- Broken or dislocated bones
- Chest pain
- Difficulty Breathing
- Deep cuts
- Serious burns
- Severe allergic reactions
- Loss of consciousness
- Convulsions or Seizures
