ABOUT ATLANTICARE REGIONAL MEDICAL CENTER

AtlanticCare, a member of Geisinger, is an integrated system of services designed to help people achieve optimal health. It comprises AtlanticCare Regional Health Services including AtlanticCare Regional Medical Center with three locations, ambulatory services and AtlanticCare Physician Group; the AtlanticCare Foundation, and AtlanticCare Health Solutions, an accountable care organization.

The region’s largest healthcare organization and largest non-casino employer, AtlanticCare’s more than 7,500 employees and 900 physicians and providers serve the community in more than 100 locations throughout five counties in New Jersey. AtlanticCare and its business units are governed by boards of director volunteers led by community leaders. AtlantiCare’s focus is to serve the community as a provider of health and wellness services.

AtlanticCare’s Neuropsychiatric Institute (JNI) is a member of the Jefferson Neuroscience Network (JNN). Through this collaboration, Jefferson and ARMC provide some of the most sophisticated care and expertise available to patients with time-sensitive neurovascular diseases. The summit is designed to improve the knowledge, competence, and performance of healthcare providers engaged in the daily care of patients who suffer from stroke and stroke-related conditions. We will take a close look at diseases and neurological conditions and discuss latest neurological interventions, to present a knowledge gap related to current information and technology.

TARGET AUDIENCE

This program is designed for physicians, nurses, allied health providers, pharmacists, rehabilitation therapists, social workers, care managers, radiology technologists and first responders. The goal is to improve the delivery of care in treating neurological and neurosurgical conditions including stroke and stroke-related conditions and diseases.

CONFERENCE OBJECTIVES

At the conclusion of this program participants should be able to:

• Explain the secondary stroke prevention needed for young stroke patients.
• Identify various post-stroke complications and how they impact a stroke survivor.
• Explain stroke prevention guidelines for women.
• Explain the management of aphasia, dysphagia and swallowing disorders.
• Explain post-stroke neglect and how virtual reality can be used in treatment.
• Explain how normal pressure hydrocephalus is managed.
• Identify updates in targeted temperature management.
• Explain the management of atrial fibrillation and associated stroke prevention strategies.
• Explain stroke prevention guidelines for women.
• Determine the knowledge, competence, and performance of healthcare providers engaged in the daily care of patients who suffer from stroke and stroke-related conditions.

PROGRAM OVERVIEW

The AtlanticCare Neurosciences Institute at AtlanticCare Regional Medical Center (ARMC) invites you to the Ninth Annual Regional Neurosciences Conference and State of the Art Stroke Summit. The conference will discuss advances and new technologies in comprehensive stroke, neurological care. Covering seven specialty areas within the field of neurosciences, this two day regional conference provides an elaborate learning experience on topics ranging from neuro-oncology, stroke neurology, spine surgery, endovascular neurosurgery, neuroradiology, and neurological critical care.

The summit is designed to improve the knowledge, competence, and performance of healthcare providers engaged in the daily care of patients who suffer from stroke and stroke-related conditions. We will take a close look at diseases and neurological conditions and discuss latest neurological interventions, to present a knowledge gap related to current information and technology.
